

K-HUB DAY 1 REPORT

Date:2nd-Aug-2025

Venue: KIET Campus / K-Hub Lab

Attended By: Junior Developers, Senior Developers, Team Leads

1. Introduction to K-Hub

The day began with an insightful session led by senior developers, who introduced the history and vision of K-Hub. They shared how it started in collaboration with RCTS – IIIT Hyderabad and how it evolved into a platform that provides real-time project experience, industry exposure, and internship opportunities.

2. Key Learnings from the Senior Session

- Origins and growth of K-Hub in partnership with RCTS IIIT-H
 - Success stories of former juniors who became team leads and interns
 - Importance of discipline, collaboration, and consistent effort
 - Role of projects in skill development and internship selection
-

3. Team Introductions and Interaction

All junior developers were grouped into their respective teams. Each member introduced themselves, shared their interests, and highlighted their technical strengths and goals. It was a session of active bonding and team alignment.

4. Team Lead Guidance

Team leads conducted focused discussions covering:

- Responsibilities of a junior developer
 - How to work efficiently in teams
 - Communication etiquette and collaboration tools
 - Long-term goal: Transition from junior developer to senior, then to team lead
-

5. 6-Month Learning Roadmap Towards RCTS Winter Internship

6. Conclusion

Day-1 set a strong foundation for collaboration, learning, and professional growth. The energy, clarity, and shared vision among all members reflected the potential of the batch. With the right focus and execution, every developer here can aim for the Winter Internship and leadership roles in the future
